

Gourav Kataria

Senior .NET Developer · Full-Stack Engineer · Cloud & Microservices

+91 855 985 7415 | gouravkataria924@gmail.com | linkedin.com/in/gourav-kataria-3aa5a7201 | India

PROFESSIONAL SUMMARY

Results-driven Senior .NET Developer with 5.5 + years of experience designing and delivering scalable, cloud-native enterprise applications across healthcare, HR technology, travel, and e-learning sectors. Deep expertise in .NET Core, C#, Web API, microservices architecture (Kafka, RabbitMQ, Docker), Azure cloud, and React.js front-end development. Proven ability to optimise database performance, lead feature delivery in Agile/Scrum teams, and build secure, high-availability systems used by enterprise clients globally.

TECHNICAL SKILLS

Backend: .NET Core · C# · Web API · ASP.NET MVC · Node.js

Messaging: Apache Kafka · RabbitMQ · Ocelot API Gateway · Redis

Databases: MS SQL Server · MySQL · PostgreSQL · MongoDB

ORM / Data: Dapper · ADO.NET · Stored Procedures · Query Optimisation

Frontend: React.js · JavaScript (ES6+) · jQuery · AJAX · Bootstrap · Kendo UI

Cloud & DevOps: Microsoft Azure · Azure AD B2C · Docker

Version Control: Git · GitHub · GitLab · TFS

Methodology: Agile · Scrum · JIRA · Code Review · CI/CD

PROFESSIONAL EXPERIENCE

Senior Software Developer · **Dayforce** — Remote

07/2025 – Present

- Architecting and developing scalable **workforce management, payroll & employee engagement modules** for the Dayforce HCM platform serving thousands of enterprise clients globally.
- Building production-grade REST APIs using **.NET Core, Web API, React.js, MS SQL Server, MongoDB** deployed on **Microsoft Azure**.
- Implementing event-driven microservices with Apache Kafka** to achieve high throughput, fault tolerance, and horizontal scalability.
- Reduced critical query execution times by 30–40%** through strategic indexing, query refactoring, and Dapper optimisation.
- Collaborating in a cross-functional Agile/Scrum team of 8+ engineers**, driving sprint planning, peer code reviews, and retrospectives.
- Enforcing security best practices and compliance standards across all API and data layers.

Software Engineer · **Elilkay** — Remote

04/2024 – 06/2025

- Delivered EMRArchive** — a cloud-based patient data and hospital management platform serving multiple healthcare organisations.
- Designed scalable backend architecture using **ASP.NET Core MVC, SQL Server, Dapper + Stored Procedures**, cutting average query execution time by ~25%.
- Integrated Kendo UI component library** for interactive scheduling grids, data visualisations, and reporting dashboards.
- Implemented secure, audit-compliant features aligned with healthcare data privacy standards.

.NET Developer · **TecMantras** — India

11/2022 – 03/2024

- Odenza Panel:** Built and maintained a travel industry management platform handling tickets, guest profiles, invoices, and orders with role-based access control. Stack: ASP.NET MVC, ADO.NET, jQuery, MS SQL Server.
- Asset Manager:** Developed a store-based inventory and asset tracking system; designed RESTful APIs. Stack: ASP.NET Core, Azure AD B2C, GitHub.

- **CI Boost:** Contributed to a multimedia e-learning platform integrating audio, video, and chapter content APIs. Stack: ASP.NET Core, MS SQL Server, GitLab.

Junior .NET Developer · **Quest Infosoft Pvt Ltd** — India

11/2021 – 10/2022

- **Built a full-featured Hospital Management System** with Admin, Facility, and Patient portals; handled end-to-end module ownership.
- **Designed complete database architecture** including stored procedures, functions, and relational schema in MS SQL Server.
- Developed responsive UI components using HTML5, CSS3, Bootstrap, jQuery, and AJAX for real-time data retrieval.

Junior .NET Developer · **ConvergeSoft International Pvt Ltd** — India

05/2020 – 11/2021

- **Modernised legacy web applications** by migrating from Web Forms to ASP.NET MVC and ASP.NET Core Web API, improving maintainability and performance.
- Enhanced application performance and UX through optimised code refactoring and UI improvements.
- Worked closely with senior developers to scope and deliver client-specific custom solutions on schedule.

EDUCATION

M.Sc. Mathematics · Sekhawati University, India

2016 – 2018

B.Sc. Mathematics · University of Rajasthan, India

2013 – 2016

LANGUAGES

English

Professional Working Proficiency

Hindi

Native / Bilingual
